### **Activate B2 Workbook Answers**

I want to have a number of worksheet on each of worksheets in a workbook skipping the first one and do some formatting as well, however i want this vba code to skip the first worksheet (name can differ but always is going to be first).

### **Skip first worksheet of the workbook in VBA - Stack Overflow**

Interesting. In 2009 a conflict with conditional formatting of the sheet to open is described, as in vbforum post. It seems that this bug still exists in excel and prevents the workbook\_open event from being fired. I have a workbook (old XLS-binary format) that simply does not fire the event in Excel 2003 and 2007 but does in 2013.

### **excel - Workbook\_Open sub won't run when I open the ...**

i'm trying to make a file copy a single sheet to a new workbook, save the new workbook, then email the workbook. I make it decide whether or not to just save or save and email based on a flag mySave The save

### **ActiveWorkbook.SendMail not working [SOLVED]**

Sorting with DoubleClick data has headers (#dclick) Since the sort buttons can not be assumed to include or omit headers, you would have to consider their use to be unreliable. The following example would allow you to double-click on any cell and you would sort on that column.

Description: When we are dealing with many worksheet, it is a routine thing to copy data from one worksheet to another in Excel VBA. For example, we may automate a task which required to get the data from different worksheets (some times different workbooks).

### **Copy Data from one Worksheet to Another in Excel VBA**

Basically this is what I want: I want to be able to hover my cursor over a cell in an excel sheet that then brings up a box showing data that is entered in another sheet within the workbook....

### **Excel Sheet Hover Over Cell To Display Data - Experts Exchange**

Experts, I am trying to figure out how to determine if the VLOOKUP formula returns #N/A. I want to find what the formula returns, if it is NOT #N/A, then go to the next cell. If it IS #N/A, then I want to: 1. Copy cell A (and the row number the #N/A occurs) as well as cell C of the same row.
