Community Reviews. "Bucking the Sun" makes even clearer Ivan Doig's worthiness to succeed Wallace Stegner as the foremost chronicler of lives in the American West, though in fact they weren't that far apart in age; Doig just got a later start. This fine novel about the construction of the Fort Peck Dam in Montana,...

Bucking the Sun. As in Doig's Montana trilogy (Dancing at the Rascal Fair, etc.), here American history forms the vivid backdrop for a flinty family drama. Once again, a group of hardheaded, Scotch-descended Montanans struggle with each other and with nature, this time during the building of the Fort Peck Dam from 1933 to 1938.

**Bucking the Sun by Ivan Doig - Goodreads**

I believe Ivan Doig focused on the ill-concieved town and how it brought out the crude and selfishness in human nature. I grew fond of Gros Ventre and the very human inhabitants of that small town and Scotch Heaven, but the Fort Peck project seemed to collect an entirely different population that permeated "Bucking the Sun" with ugliness.

Ivan Doig's latest novel, Bucking the Sun, may have arrived in time to serve as an antidote to the latest syrupy representations of the West, such as The Horse Whisperer. Doig's book should be required reading for those who would romanticize Montana, and it offers an important history lesson for all.
