Intelligent business - Pearson ELT

Group decision-making (also known as collaborative decision-making) is a situation faced when individuals collectively make a choice from the alternatives before them. The decision is then no longer attributable to any single individual who is a member of the group. This is because all the individuals and social group processes such as social influence contribute to the outcome.

Group decision-making - Wikipedia

Working with the Price Filter workspace The price filter workspace consists of the following filters: Constellations - You'll choose this filter first; there are only two to choose from: Constellation I - contains industry partners that are technically proficient with competitive pricing for contract opportunities that do not require CMMI/ISO industry credentials.

The Fundamental Idea of Cryptography: It is possible to transform or encipher a message or plaintext into "an intermediate form" or ciphertext in which the original information is present but hidden. Then we can release the transformed message (the ciphertext) without exposing the information it represents.
