Qualitative content analysis and thematic analysis are two commonly used approaches in data analysis of nursing research, but boundaries between the two have not been clearly specified.

Content analysis and thematic analysis: Implications for ...

The first is the predetermined adaptive approach. 1 In this approach, at the beginning of the course, a student's learning path is determined based on the technology's initial knowledge of that individual, and that path is not altered going forward. 1 The second approach includes real-time adaptation. 1 It starts with an initial path, like in the predetermined adaptive approach, but it ...
