#### Nothing is true. Everything is permitted.

"Nothing", used as a pronoun subject, denotes the absence of a something or particular thing that one might expect or desire to be present ("We found nothing," "Nothing was there") or the inactivity of a thing or things that are usually or could be active ("Nothing moved," "Nothing happened"). As a predicate or complement "nothing" denotes the absence of meaning, value, worth, relevance ...

Everything (or every thing) is all that exists; the opposite of nothing, or its complement. It is the totality of things relevant to some subject matter. Without expressed or implied limits, it may refer to anything. The Universe is everything that exists theoretically, though a multiverse may exist according to theoretical cosmology predictions. It may refer to an anthropocentric worldview, or ...
