- Hi! I'm Simon Allardice, and welcome to Foundations of Programming Test Driven Development. Now this is programming, you should never just hope that your code works properly. You should be able to prove it and prove it again and again, every step of the way, from the very first lines of code you write, all the way through to deploying an application. The best way to prove it is with ...

"I think the world of Web development is becoming easier and easier but it's also making it harder for guys like me to find work because so many people want to use out-of-the-box responsive layout sites that are easy to implement and launch. I personally would much rather make a site from scratch than use a template.
