

Toolbox For Sustainable City Living A Do It Ourselves Guide Scott Kellogg

Toolbox For Sustainable City Living

What is sustainable development? A definition of sustainable development can be: to meet the basic needs of people today without ruining the chances of future generations to do the same. In earlier modules we learnt that development can occur when economies are strong and can provide for all the people in a country.

Integrated Development Planning for Local Government

12 Ways to Live More Sustainably. Every day we make choices in our lives that affect the environment, the climate and other species. From what we eat to how many children we decide to have, there's a lot we can do to "choose wild" and reduce our environmental footprint to leave more room for wild animals and plants.

Blue-Green Cities end of project dissemination event Feb 2016. On the 18th February 2016, the Blue-Green Cities Research Consortium and partners from the project demonstration city, Newcastle UK, hosted an event to disseminate research findings, showcase influential speakers and discuss how a Blue-Green vision for improved flood resilience might progress.

BlueGreenCities

The indigenous people of the world possess an immense knowledge of their environments, based on centuries of living close to nature. Living in and from the richness and variety of complex ecosystems, they have an understanding of the properties of plants and animals, the functioning of ecosystems and the techniques for using and managing them that is particular and often detailed.
